23rd International Meeting of Association Research Circulation Osseous | ARCO 2026

International Combined Meeting **EORS-ARCO 2026**

22-23 September 2026

WELCOME LETTER

Dear colleagues and friends,

Orthopaedic research has seen continuous and exciting advancements over the past decades. Contemporary management for arthritic and traumatic disorders depends on improved knowledge and the practical application of these new findings. Therefore, a close collaboration between clinicians and researchers is essential to achieve optimal patient outcomes.

During its General Assembly in 2024, the European Orthopaedic Research Society (EORS) approved Madrid, Spain as the host city for its 34th Annual Meeting, to be held from September 23 to 25, 2026. It is our privilege to welcome you to one of the best events for sharing ideas, fostering learning, and networking in the field of Orthopaedics, not only in Europe but globally.

Driven by the EORS's central aim, this event provides a unique forum where orthopaedic surgeons, biologists, biomechanists, bioengineers, and translational investigators can engage in vital discussions. The ultimate objective is not only to streamline the path of promising findings from the lab to the clinic, but also to identify pressing clinical problems that require further investigation. The program will combine keynote lectures from world-renowned experts with symposia and free paper sessions, all designed to enhance research studies and extract clinically relevant conclusions through dynamic debates. Additionally, poster sessions will provide excellent opportunities to increase the visibility of investigations. We especially encourage new investigators to participate, gain valuable experience, and foster their growth in the field.

Madrid is a vibrant, growing city with excellent facilities. It is currently experiencing significant growth in its demographics, investment, and international standing. The Congress will be held at the Escuela Técnica Superior de Ingenieros Industriales – Universidad Politécnica de Madrid, part of the School of Industrial Engineering. This prime venue is centrally located on the iconic Paseo de la Castellana, near the Santiago Bernabéu Stadium. Attendees will find all accommodations and travel connections exceptionally accessible, ensuring a smooth and enjoyable experience at our venue.

We are very honored to organize our EORS Annual Meeting!

Nos vemos en Madrid!

Eduardo García-Rey, MD, PhD.

Laura Saldaña, PhD.

GENERAL INFORMATION

Venue

UPM School of Industrial Engineering
C. de José Gutiérrez Abascal, 2
Chamartín, 28006 Madrid

The UPM School of Industrial Engineering is one of the most prestigious engineering institutions in Spain. Located in the heart of Madrid, the school stands out for its academic excellence, strong industrial connections, and a long tradition of engineering education and research. Its emblematic building on Paseo de la Castellana provides an ideal location for conferences, with excellent accessibility and modern facilities suitable for large scientific events.

MAIN CONTACT DETAILS

PROGRAM AT A GLANCE - ARCO

TUESDAY - 22 SEPTEMBER 2026				
	SALÓN DE ACTOS	AULA C	AULA D	AULA PUIG ADAM
08:00-08:05	OPENING AND WELCOME			
08:05-08:30	GUEST LECTURE Historical Perspective of Osteonecrosis <i>Michael Mont, United States</i>			
08:30-10:00	UPDATES FROM THE EXECUTIVE DIRECTOR AND THE REGIONAL VICE PRESIDENTS OF ARCO What's new in the last 2 years from bench to bedside?			
10:00-10:30	Coffee break and Poster viewing			
10:30-11:30	UPDATE ON CPG ON ONFH			
11:30-12:30	PANEL DISCUSSION Are there differences in preser- vation of the hip in Stage I and II Non-Traumatic ONFH – adoles- cence vs young adult vs older adult			
12:30-13:30	Lunch, Networking and Poster viewing			
13:30-14:00	GUEST LECTURE What really constitutes osteonecrosis of the Knee and what are the treatment options? <i>Quanjun Cui, United States</i>			
14:00-15:00	PANEL DISCUSSION Is hip preservation a viable option in Stage IIIA and IIIB ONFH?			
15:00-16:00	OPEN PAPERS 1 Cells and Molecules			
16:00-16:30	Coffee break and Poster viewing			
16:30-17:30	OPEN PAPERS 2 Imaging and other diagnostic modalities			
17:30-18:30	OPEN PAPERS 3 Treatment outcomes			

PROGRAM AT A GLANCE - ARCO

WEDNESDAY - 23 SEPTEMBER 2026				
	SALÓN DE ACTOS	AULA C	AULA D	AULA PUIG ADAM
08:00-10:00	CUTTING EDGE RESEARCH AND TREATMENT OF OSTEONECROSIS			
10:00-11:00	PANEL DISCUSSION ARCO and EORS Past Presidents			
11:00-11:20	AWARDS AND CLOSING CEREMONY			

PROGRAM AT A GLANCE - EORS

WEDNESDAY - 23 SEPTEMBER 2026				
	SALÓN DE ACTOS	AULA C	AULA D	AULA PUIG ADAM
11:00-12:00	Registration			
12:00-12:25	Opening and Welcome			
12:30-13:25	TRANSLATIONAL The Importance of Pain in Orthopedic Conditions	BIOENGINEERING / BIOMECHANICS Smart Implants integrating implantable sensors and intelligent analytics: Technologies, Developments and the SMILE project	CLINICAL & BIOENGINEERING Material Solutions to Prevent Orthopaedic Implant Infections	FREE PAPERS Wear & Loosening
13:30-14:25	CLINICAL EHS Session – Bearing Surfaces and Modern Trends in Total Hip Arthroplasty	BIOENGINEERING / BIOMECHANICS Advances in biomechanical models for spinal fusion: challenges and opportunities	TRANSLATIONAL Synovial fluid –The elixir of truth of joint health and disease	SUSTAINABILITY Green Orthopaedics for a sustainable future in the lab and clinic
14:30-15:00	Coffee break, Poster viewing and Exhibition			
15:00-15:25	PLENARY LECTURE Periprosthetic joint infection: How to move forward Enrique Gómez-Barrena			
15:30-16:25	BIOENGINEERING / BIOMECHANICS From Fracture Fixation to Advanced Biomaterials: Mechanics and Innovation in Bone Healing	FREE PAPERS Cartilage & Meniscus I	FREE PAPERS Preclinical	ORAL POSTERS Translational
16:30-17:25	CLINICAL & EDUCATION Bridging gaps in orthopaedics through education, access, and innovation in low income environments	TRANSLATIONAL Uncovering the Gut-Joint axis: The role of gut microbiome and endotoxemia in the arthritic joint	TRANSLATIONAL Extracellular vesicles in musculoskeletal regeneration and repair	FREE PAPERS Artificial intelligence & Digital Medicine
17:30-18:25	BIOENGINEERING BORS-EORS Joint Symposium: Orthopaedic Research Toolkits - Evolving Approaches to Assess Structure-Function in Musculoskeletal Tissues	TRANSLATIONAL FIORS Meets markers of patient outcomes	FREE PAPERS Biomechanics I	
20:00-21:30	Congress Opening and Welcome cocktail at ABC Serrano			
21:30-23:30	New Investigator Social Event			

PROGRAM AT A GLANCE - EORS

THURSDAY - 24 SEPTEMBER 2026				
	SALÓN DE ACTOS	AULA C	AULA D	AULA PUIG ADAM
08:30-09:25	BIOENGINEERING / BIOMECHANICS Organotypic microphysiological systems to study musculoskeletal pathologies and develop regenerative therapies	TRANSLATIONAL PTOA: From initiation to progression	CLINICAL Shaping recovery in osteoarthritis from nutritional risk and joint biology to patient acceptable living	FREE PAPERS Cartilage & Meniscus II - Clinical
09:30-10:25	09:30-09:55 ON/EORS Awards	FREE PAPERS Cartilage Regeneration & Advanced Therapies	FREE PAPERS 3D modelling & Personalized Surgical Planning	FREE PAPERS Infection
	09:55-10:25 EORS/AESCULAP Awards			
10:30-11:00	Coffee break, Poster viewing and Exhibition			
11:00-11:55	BIOENGINEERING / BIOMECHANICS Emerging biofabrication and bioprinting strategies for the engineering of functional musculoskeletal tissues	CLINICAL Clinical Research on Bone Healing and Regeneration	FREE PAPERS Clinical Optimization in Spine and Joint Surgery	FREE PAPERS Inflammation & healing
12:00-12:30	PLENARY LECTURE Challenges of translating orthopaedic research into clinical solutions Geoff Richards			
12:30-13:30	Lunch, Poster viewing and Exhibition			
13:30-14:25	CLINICAL Fixation in THA and TKA	TRANSLATIONAL Stimuli-Responsive Platforms in Regenerative Medicine	BIOENGINEERING / BIOMECHANICS TENET symposium on Recent advances in biomaterials, cell based therapies and other innovative tools for tendon regeneration	FREE PAPERS Advances in Orthopedic Surgery
14:30-15:25	NEW INVESTIGATOR AI and Digitalization: Three POVs, One Future	FREE PAPERS Biomaterials & Tissue Engineering	FREE PAPERS Tendon & Ligament	ORAL POSTERS Bioengineering / Biomechanics
15:30-16:00	Coffee break, Poster viewing and Exhibition			
16:00-16:55	TRANSLATIONAL ORS Spine Symposium Innovation in spine from bedside to bench – What are we missing?	BIOENGINEERING / BIOMECHANICS Mechanobiology in orthopaedics and musculoskeletal regeneration – in vivo, in silico, in vitro	TRANSLATIONAL Fighting infection: Where do we stand? From unmet clinical needs to future solutions?	FREE PAPERS Wearables Technology & Patient activity Tracking
17:00-18:00	EORS General Assembly			
20:00	Networking Event (not included in the registration fee) at Real Casino de Madrid			

PROGRAM AT A GLANCE - EORS

FRIDAY - 25 SEPTEMBER 2026				
	SALÓN DE ACTOS	AULA C	AULA D	AULA PUIG ADAM
08:30-09:25	TRANSLATIONAL The NetwOArk - Building an open European Network on OsteoArthritis research (CA21110)	TRANSLATIONAL From Biomarkers to Bioresorbable Scaffolds: Engineering Orthopaedic Regeneration	BIOENGINEERING / BIOMECHANICS BIOMET4D-EORS: Next-Generation Metallic Additive Manufacturing: From Smart Implants to Advanced Surface Functionalization	FREE PAPERS Experimental Models & Metabolism
09:30-10:25	TRANSLATIONAL The Synovium in Knee Osteoarthritis: From Mechanisms to Therapeutic Opportunities	CLINICAL INVESCOT: Future Challenges in Orthopedic Surgery Research		FREE PAPERS Biomechanics II
10:30-11:00	Coffee break, Poster viewing and Exhibition			
11:00-11:55	BIOENGINEERING / BIOMECHANICS ISTA-EORS Symposium on Current Achievements, New Technologies & Future Perspectives in Total Joint Arthroplasty	CLINICAL Anterior Hip Symposium	TRANSLATIONAL Mapping the Musculoskeletal Microenvironment Through Spatial Omics	FREE PAPERS Biomaterials & Stem Cells
12:00-12:30	PLENARY LECTURE AI gets physical: assessing movement and activity with sensors, implants and vision to improve patient outcomes Bernd Grimm			
12:30-13:30	Lunch, Poster viewing and Exhibition			
13:30-14:25	CLINICAL Precision Disc Degeneration: From Biology to Clinical Translation	TRANSLATIONAL Small Packages, Big Impact: Extracellular Vesicles in Musculoskeletal Health and Disease' - Symposium of the German Musculoskeletal Regeneration Network (MRNet, DGOU)	CLINICAL TOTBID-TOAK: Translational Advances in Orthopaedic Trauma: From Infection Biology to Hip Preservation and Polytrauma Care	ORAL POSTERS Clinical
14:30-15:25	CLINICAL Innovations in Orthopedic Surgery: The fate of 3D Printing, custom made implants and robotics	FREE PAPERS Bone Diseases	FREE PAPERS Cartilage & Meniscus III	
15:30-16:00	Coffee break, Poster viewing and Exhibition			
16:00-16:55	CLINICAL Forte	FREE PAPERS Clinical Hip & Knee	FREE PAPERS Biomechanics & Orthopaedic Surgery	
17:00-18:00	Awards and Closing Ceremony			

ARCO MEETING 2026

SCIENTIFIC PROGRAM

SEPTEMBER 22nd-23rd

SCIENTIFIC PROGRAM • TUESDAY, SEPTEMBER 22nd

08:00-08:05 - **SALÓN DE ACTOS**

OPENING AND WELCOME

Stuart B. Goodman, United States

Lynne Jones, United States

Quanjun Cui, United States

08:05-08:30 - **SALÓN DE ACTOS**

Guest Lecture

Chair: Stuart B. Goodman, United States

HISTORICAL PERSPECTIVE OF OSTEONECROSIS

Michael Mont, United States

08:30-10:00 - **SALÓN DE ACTOS**

Updates from the Executive Director and the Regional Vice Presidents of Arco

Chairs: Stuart B. Goodman, United States

Lynne Jones, United States

Quanjun Cui, United States

WHAT'S NEW IN THE LAST 2 YEARS FROM BENCH TO BEDSIDE?

10:00-10:30 Coffee break and Poster viewing

10:30-11:30 - **SALÓN DE ACTOS**

Update on CPG on ONFH

Chair: Quanjun Cui, United States

UPDATE ON CPG ON ONFH

Edward Cheng, United States

11:30-12:30 - **SALÓN DE ACTOS**

Panel Discussion

Chairs: Harry Kim, United States

Daniel Wiznia, United States

ARE THERE DIFFERENCES IN PRESERVATION OF THE HIP IN STAGE I AND II NON-TRAUMATIC ONFH – ADOLESCENCE VS YOUNG ADULT VS OLDER ADULT

Seung-Hoon Baek, South Korea

Edward Cheng, United States

Philippe Hernigou, France

Takashi Sakai, Japan

Yong Feng, China

Dewei Zhao, China

12:30-13:30 Lunch, Networking and Poster viewing

13:30-14:00 - **SALÓN DE ACTOS**

Guest Lecture

Chair: Lynne Jones, United States

WHAT REALLY CONSTITUTES OSTEONECROSIS OF THE KNEE AND WHAT ARE THE TREATMENT OPTIONS?

Quanjun Cui, United States

14:00-15:00 - **SALÓN DE ACTOS**

Panel Discussion

Chairs: Yong-Chan Ha, South Korea

Nobuhiko Sugano, Japan

IS HIP PRESERVATION A VIABLE OPTION IN STAGE IIIA AND IIIB ONFH?

Wataru Ando, Japan

Edward Cheng, United States

Takashi Sakai, Japan

Jirong Shen, China

Daniel Wiznia, United States

Dewei Zhao, China

15:00-16:00 - **SALÓN DE ACTOS**

Open Papers 1

CELLS AND MOLECULES

Chairs: Wataru Ando, Japan

Daniel Wiznia, United States

15:00-15:07

Endothelial-To-Mesenchymal Transition Drives Vascular Dysfunction In Steroid-Induced Osteonecrosis Of The Femoral Head

Fan Yang, China

15:07-15:14

Mechanism Of Femoral Head Lymphatic Drainage Dysfunction In Steroid-Induced Osteonecrosis Of The Femoral Head And Interventional Study On The VEGF-C/VEGFR-3 Axis

Baoyi Liu, China

15:14-15:21

Chimeric Osteonecrosis After Allogeneic Or Autologous Repair By Sex-Mismatched Cell Therapy Injection In Hip Osteonecrosis Of Patients With Hematologic Cancer: A Correlative MRI And Histological Study Of 20 Human Specimens

Philippe Hernigou, France

SCIENTIFIC PROGRAM • TUESDAY, SEPTEMBER 22nd

15:21-15:28

Prevention Of Disease Progression With Cell Therapy In Contralateral Hip Osteonecrosis In Patients Undergoing Total Hip Arthroplasty: A Propensity-Score-Matched Cohort Study

Philippe Hernigou, France

15:28-15:35

An Allogeneic, Cryopreservable Pre-Osteoblastic Product Derived From Human Umbilical Cord MSCs Enables Coupled Osteogenesis And Angiogenesis For Vascularized Bone Regeneration

Hyun Sook Park, South Korea

15:35-15:42

Safety And Efficacy Of Cell Therapy Based On Osteoblast Derived From Umbilical Cord Mesenchymal Stem Cells For Osteonecrosis Of The Femoral Head : Open-Label, Phase I Clinical Trial

Seung-Hoon Baek, South Korea

15:42-15:49

Danshenol A Alleviates Steroid-Induced Osteonecrosis Of The Femoral Head: P38/CHOP/GPX4-Mediated Inhibition Of Endothelial Ferroptosis

Fan Yang, China

15:49-15:56

BAX/MTORC2-Dependent Mitoxyperilysis Drives Endothelial Collapse In Steroid-Induced Femoral Head Osteonecrosis

Yun Zhu, China

16:00-16:30 Coffee break and Poster viewing

16:30-17:30 - **SALÓN DE ACTOS**

Open Papers 2

IMAGING AND OTHER DIAGNOSTIC MODALITIES

Chairs: Seung-Hoon Baek, South Korea

Takashi Sakai, Japan

16:30-16:37

Construction Of A Three-Dimensional Pathological Model Based On DSA-CT-MRI Multimodal Image Fusion And Its Quantitative Evaluation In ARCO Staging Of Osteonecrosis Of The Femoral Head

Jiawei Ying, China

16:37-16:44

Quantitative Analysis Of Microcirculation Impairment In Osteonecrosis Of The Femoral Head In Relation To ARCO Staging: A Study Based On DSA Hemodynamic Parameters

Jiawei Ying, China

16:44-16:51

Joint Preservation Or Arthroplasty? Imaging-Derived Risk Stratification At The ARCO II-III Threshold In Osteonecrosis Of The Femoral Head: A Systematic Review

Haley Mae Cox, United States

16:51-16:58

Blood Supply Staging Of Osteonecrosis Of The Femoral Head And Its Clinical Application

Dewei Zhao, China

16:58-17:05

Prediction Of Femoral Head Collapse Using Weight-Bearing Lateral View Assessment With Tomosynthesis In Idiopathic Osteonecrosis Of The Femoral Head

Masahiro Numa, Japan

17:05-17:12

Cartilage And Subchondral Bone Discontinuity In ONFH: Pathological Prevalence And Its Role As A Predictor Of THA Conversion

Kuan-Lin Chen, United States

17:12-17:19

The Distribution Of Epiphyseal T2 Hyperintensity On MRI Is Associated With Prognosis In Legg-Calvé-Perthes Disease

Takuji Yamamoto, Japan

17:19-17:26

Lateral Weight-Bearing Sclerotic Rim-to-Necrotic Area Signal Intensity Ratio Predicts Disease Progression In Osteonecrosis Of The Femoral Head

Ziqi Li, China

17:30-18:30 - **SALÓN DE ACTOS**

OPEN PAPERS 3

TREATMENT OUTCOMES

Chairs: Masaki Takao, Japan

Yong Feng, China

Dewei Zhao, China

SCIENTIFIC PROGRAM • TUESDAY, SEPTEMBER 22nd

17:30-17:37

**Vascularized Versus Nonvascularized Fibular
Grafting For Osteonecrosis Of The Femoral Head: A
20-Year Comparative Outcome Study**

Seung-Hoon Baek, South Korea

17:37-17:44

**Total Hip Arthroplasty In 125 Hips With End-Stage
Osteonecrosis Of Very Young Patients (<21 Years):
40-Year Follow-Up Period (Range 30 To 50)**

Philippe Hernigou, France

17:44-17:51

**Clinical And Biomechanical Evaluation Of Pedicled
Vascularized Iliac Bone Grafting For Osteonecrosis
Of The Femoral Head: A Multimodal Imaging And
Finite Element Study**

Jirong Shen, China

17:51-17:58

SCIENTIFIC PROGRAM

SEPTEMBER 23rd-25th

SCIENTIFIC PROGRAM • WEDNESDAY, SEPTEMBER 23rd

11:00-12:00

Registration

12:00-12:25 - **SALÓN DE ACTOS**

Opening and Welcome

Sergio Domínguez Cabrerizo, Dean of the School of Industrial Engineering, Universidad Politécnica de Madrid (UPM)

Eduardo García-Rey

Laura Saldaña

12:30-13:25 - **SALÓN DE ACTOS**

Symposium 1: Translational

**THE IMPORTANCE OF PAIN
IN ORTHOPEDIC CONDITIONS**

Chairs: Joyce McSwan, Australia

Gabriela Graziani, Italy

12:30-12:45

**Understanding Biological Variability Might Lead To
Stratified Pain Care For Patients With Osteoarthritis**

Kristian Kjær-Staal, Denmark

12:45-12:55

The Importance Of Pain In Orthopedic Conditions

Joyce McSwan, Australia

12:55-13:05

**Biomarkers Of Pain And The Relationship With Low
Grade Inflammation, Obesity And Metabolic Disease**

Ali Mobasher, Finland

13:05-13:15

**Bridging the gap between orthopaedic research and
pain research**

Gabriela Graziani, Italy

13:15-13:25

**Linking Autonomic Imbalance, Inflammation, And
Pain In Osteoarthritis**

Zsuzsa Jenei-Lanzl, Germany

12:30-13:25 - **AULA C**

**Symposium 2: Bioengineering /
Biomechanics**

**SMART IMPLANTS INTEGRATING IMPLANTABLE
SENSORS AND INTELLIGENT ANALYTICS:
TECHNOLOGIES, DEVELOPMENTS AND THE
SMILE PROJECT**

Chairs: Tobias Barth, Germany

Bergita Ganse, Germany

12:30-12:45

**More than Titanium - the Intelligence within: Smart
Implants and the SMILE project**

Bernd Grimm, Luxembourg

12:45-12:55

**Integrating Patient and Clinician Perspectives in
Smart Implant Development: European Survey
Insights**

Maïke Schnoor, Germany

12:55-13:05

**Long-Term Results from first- and second-generation
Instrumented Fracture Plates assessing Bone Union
over 10 Years**

Tobias Barth, Germany

13:05-13:15

**Technical verification and clinical validity of an
accelerometer-only, low sampling frequency
approach to monitor gait after joint replacement**

Shima Gholinezhad, Denmark

13:15-13:25

**Non-invasive in-vivo bone oxygenation and blood
flow measurements to monitor fracture healing**

Bergita Ganse, Germany

12:30-13:25 - **AULA D**

Symposium 3: Clinical & Bioengineering

**MATERIAL SOLUTIONS TO PREVENT ORTHOPAEDIC
IMPLANT INFECTIONS**

Chairs: Julietta V. Rau, Italy

Iulian Antoniac, Romania

A Framework For Sustainable Biomaterials: Integrating Supply Chains, Hospital Use, And Circularity

Matteo D'Este, Switzerland

14:15-14:25

The Non-Green Side Of Outdoor Sports

Girish Pattappa, Germany

14:30-15:00 Coffee break, Poster viewing and Exhibition

15:00-15:25 - **SALÓN DE ACTOS**

INSTITUTIONAL WELCOME AND PLENARY LECTURE

Chairs: Laura Saldaña, Spain

Eduardo García-Rey, Spain

15:00-15:08

INSTITUTIONAL WELCOME

Inmaculada Ibáñez de Cáceres, Director General for Research and Education, Regional Government of Madrid, Spain

15:08-15:25

PERIPROSTHETIC JOINT INFECTION: HOW TO MOVE FORWARD

Enrique Gómez-Barrena, Spain

15:30-16:25 - **SALÓN DE ACTOS**

Symposium 8: Bioengineering / Biomechanics

FROM FRACTURE FIXATION TO ADVANCED BIOMATERIALS: MECHANICS AND INNOVATION IN BONE HEALING

Chairs: Eduardo García-Rey, Spain

Laura Saldaña, Spain

15:00-15:15

Biomechanics of bone fracture fixation

Boyko Gueorguiev, Switzerland

SCIENTIFIC PROGRAM • WEDNESDAY, SEPTEMBER 23rd

15:15-15:30

Bioprinted Constructs With Anti-Nogo-A Antibody Promote Bone And Vascular Regeneration

Maria Chatzinikolaidou, Greece

15:30-15:38

Primary stability evaluation of an additively manufactured titanium alloy cementless tibia implant with a zrn-multilayer ceramic surface coating under dynamic stair climbing conditions with compression-shear and torsion in human tibiae

Thomas M. Grupp, Germany

15:38-15:46

Coil-Shaped 3D-Printed Nitinol Reinforcements Of ECM Derived Scaffolds For Bone Tissue Engineering Applications

Pedro J. Diaz Payno, Spain

15:46-15:54

Which End-Screw Configuration is the Most Effective to Reduce Peri-Implant Fracture Risk in Distal Femoral Plating? – Insights from Biomechanical Testing

Peter Varga, Switzerland

Liquified Foundries For Self-Organizing Micro-Skeletons: Achieving Autonomous Bone Homeostasis In Catechol-Derived Microcapsules

Maria Clara Gomes, Portugal

11:08-11:16

Acidic Phosphate Microenvironment Within Calcium Phosphate Bone Graft Substitutes Drives Ectopic Bone Formation

Yassine Maazouz, Switzerland

11:16-11:24

Time-Adaptable Alterations Of The Extracellular Matrix During Chondrocyte Dedifferentiation

Wenhao Liu, China

11:24-11:32

Bioprinted Composite Hydrogel Grafts With A Tidemark Component Can Mimic The Structure Of The Osteochondral Interface

Cevat Eriskan, Turkey

11:32-11:40

Decellularized Annulus Fibrosus Scaffolds For In Vitro Disease Modelling

Ana Luísa Castro, Portugal

SCIENTIFIC PROGRAM • FRIDAY, SEPTEMBER 25th

11:40-11:48

Gyroid scaffold anisotropy as a design approach for tailored mechanics on 3d printed bone implants

Leire Viana Uribe, Spain

11:48-11:56

A predictive modelling pipeline of osteoarthritic pain

Ryan Jones, United Kingdom

12:00-12:30 - **SALÓN DE ACTOS**

PLENARY LECTURE

Chair: Stijn Bolink, The Netherlands

AI GETS PHYSICAL: ASSESSING MOVEMENT AND ACTIVITY WITH SENSORS, IMPLANTS AND VISION TO IMPROVE PATIENT OUTCOMES

Bernd Grimm, Luxembourg

12:30-13:30 - **Lunch, Poster viewing and Exhibition**

13:30-14:25 - **SALÓN DE ACTOS**

Symposium 34: Clinical

PRECISION DISC DEGENERATION: FROM BIOLOGY TO CLINICAL TRANSLATION

Chairs: Fabrizio Russo, Italy

Gianluca Vadala, Italy

13:30-13:45

Vertebral Endplate Development and Function Is Governed by Inter-Compartment Metabolic Coupling

Makarand V. Risbud, United States

13:45-13:55

N-Acetylcysteine Regulates the Endoplasmic Reticulum Stress Response in CEP-Like chondrocytes Exposed to Proinflammatory Cytokines

Laura González-Blanco, Switzerland

13:55-14:05

Sugar-Coating Biomaterials:

A New Recipe for Disc Regeneration

Kieran Joyce, Ireland

14:05-14:15

Artificial Intelligence for Patient Stratification in Disc Regeneration

Fabrizio Russo, Italy

14:15-14:25

Clinical Translation of Cell Therapy for Intervertebral Disc Regeneration

Gianluca Vadala, Italy

13:30-14:25 - **AULA C**

Symposium 35: Translational

SMALL PACKAGES, BIG IMPACT: EXTRACELLULAR VESICLES IN MUSCULOSKELETAL HEALTH AND DISEASE' - SYMPOSIUM OF THE GERMAN MUSCULOSKELETAL REGENERATION NETWORK (MRNET, DGOU)

Chairs: Janosch Schoon, Germany

Gundula Rösch, Germany

13:30-13:45

Targeting Extracellular Vesicle Signalling in Fibrocartilaginous Tissues

Graciosa Quelhas Teixeira, Germany

13:45-13:55

Extracellular Vesicles Of Immortalized MSCs (CiMSC-EVs) – The Immunomodulatory Potential In A Human Chondrocyte Inflammation Model

Robert Ossendorff, Germany

13:55-14:05

Quercetin Attenuates Chondrocyte Anoikis Via Modulation Of Mesenchymal Stromal Cell-Derived Small Extracellular Vesicles To Promote Cartilage Repair In Osteoarthritis

Yang Zhang, China

14:05-14:15

Evaluating The Therapeutic Potential Of Telomerized Mesenchymal Stromal Cell-Derived Extracellular Vesicles For Osteoarthritis

Matteo Signor, Germany

14:15-14:25

The Role Of Galectins In Extracellular Vesicle-Mediated Tissue Communication In Osteoarthritis

Christine Strauss, Austria

13:30-14:25 - **AULA D**

Symposium 36: Clinical

TOTBID-TOAK: TRANSLATIONAL ADVANCES IN ORTHOPAEDIC TRAUMA: FROM INFECTION BIOLOGY TO HIP PRESERVATION AND POLYTRAUMA CARE

Chairs: Murat Korkmaz, Turkey

Burak Aydın, Turkey

13:30-13:45

Breaking The Biofilm Barrier: N-Acetylcysteine And Carvacrol In Orthopaedic Infections

Özhan Pazarcı, Turkey

SCIENTIFIC PROGRAM • FRIDAY, SEPTEMBER 25th

13:45-13:55

Targeted Biofilm Disruption In Bone Infections Using Ultrasound-Activated Microbubbles For Enhanced Antibiotic Delivery

Aya Ben Issa, United Kingdom

13:55-14:05

Prognostic Factors In Multitrauma Patients With Orthopedic Injuries; A Single Centre Study

Bariş Sari, Turkey

14:05-14:15

Patient Experiences Before And After Core Decompression For Stage II Femoral Head Osteonecrosis

Mehmet Yiğit Gökmen, Turkey

14:15-14:25

Case-Anchored Finite Element Phenotyping Of Four Hip-Preserving Reconstructions For Osteonecrosis Of The Femoral Head

Jirong Shen, China

13:30-14:25 - AULA PUIG ADAM

ORAL POSTERS

CLINICAL

Chairs: Stijn Bolink, The Netherlands

Luca Ambrosio, Italy

Jürgen Alphonsus, Austria

13:30-13:34

Preoperative MRI-Based Bicipital Groove-Tendon Morphometrics As Imaging Biomarkers Of Persistent Bicipital Pain And Biceps-Specific Function After Long-Head Biceps Tenotomy Performed During Rotator Cuff Repair: A Prospective Cohort Study

Muhammed Yusuf Afacan, Turkey

13:34-13:38

A Retrospective Group-Control Study Comparing Combinations Of Intra-Articular Injections For Hip Osteoarthritis

Valerio Pace, Italy

13:38-13:42

Assessing the Impact of Rotator Cuff Tear Aetiology on Clinical and Functional Outcomes Following Surgical Repair: Systematic Review and Meta-Analysis

Sharmaarke Nor, United Kingdom

13:42-13:46

The Effectiveness Of Single-Leg Hip Spica In Comparison To The Double-Leg For Pediatric Femur Fractures. Systematic Review

Yamamh Mahmood Al-Jubori, Oman

13:46-13:50

Association Of Deltoid Muscle Thickness And Proximal Humeral Cortical Thickness With Rotator Cuff Tear Severity On Shoulder MRI: Development Of A Novel MRI-Based Structural Index

Muhammed Yusuf Afacan, Turkey

13:50-13:54

TBC

13:54-13:58

Intraoperative Use Of Individualized 3D-Printed Models In Revision Hip Arthroplasty - A Case Report

Marina Insua-Rodríguez, Spain

13:58-14:02

The Impact Of Obesity On Postoperative Outcomes In Adult Scoliosis Surgery: A Nationwide Database Study

Mohammad Qusay Yahya, Israel

14:02-14:06

Long Term Survivorship Of Porous Tantalum Acetabular Components In Revision Total Hip Arthroplasty

Stuart Callary, Australia

14:06-14:10

The Relationship Between Pain Threshold, Functional Status, And Psychosocial Status In Individuals With Knee Osteoarthritis And Chronic Low Back Pain

Tugba Dere, Turkey

14:10-14:14

Does The Weekend Have An Influence?

Early Mortality After Hip Fracture In The Spanish National Hip Fracture Registry (RNFC)

Guillermo García Cruz, Spain

14:14-14:18

Validation Of Mobilise-D Algorithm For The Estimation Of Cadence, Stride Length, And Walking Speed In Semi-Standardized Condition For Patients With End-Stage Hip Osteoarthritis

Xavier Gasparutto, Switzerland

SCIENTIFIC PROGRAM • FRIDAY, SEPTEMBER 25th

14:18-14:22

Perioperative Outcomes Of Reverse Total Shoulder Arthroplasty In Patients With Rheumatoid Arthritis: A National Cohort Study

Mohammad Qusay Yahya, Israel

14:22-14:26

Survivorship And Radiographic Stability Of Modified Trabecular Metal Acetabular Components In Revision Total Hip Arthroplasty

Stuart Callary, Australia

14:30-15:25 - **SALÓN DE ACTOS**

Symposium 37: Clinical

INNOVATIONS IN ORTHOPEDIC SURGERY: THE FATE OF 3D PRINTING, CUSTOM MADE IMPLANTS AND ROBOTICS

*Chairs: Theofilos Karachalios, Greece
Mazias Mohaddes, Sweden*

14:30-14:45

Redefining Orthopedic Surgery: Complex Cases Resolved with Custom-Made 3D-Printed Implants

Alba González, Spain

14:45-14:55

Robotic Hip and Knee Replacement: Real-World Data

Mazias Mohaddes, Sweden

14:55-15:05

Dislocation After Total Hip Arthroplasty: 4977 Hips Followed Between 1999 And 2024

Ana Puerta Olivares, Spain

15:05-15:15

Integration of in-house 3D technologies into the orthopedic surgical planning workflow

José Tadeo Borjas, Spain

15:15-15:25

The role of 3D planning in revision THA

Eduardo García-Rey, Spain

14:30-15:25 - **AULA C**

Free Papers 19

BONE DISEASES

*Chairs: Nuria Vilaboa, Spain
Ana Alonso Pérez, Spain*

14:30-14:38

Novel Osteoanabolic And Neuromodulatory Proteins/Peptides For Bone Regeneration And Osteoporosis Therapy

Kelvin Yeung, Hong Kong SAR

14:38-14:46

Early Bone Loss With Endothelial-Myeloid Niche Remodeling In Colorectal Cancer-Associated Cachexia

Zeynep Bal, Japan

14:46-14:54

New Insights Into Immunoporosis: The Effect On Lymph Nodes And Spleen In An Ovariectomy-Induced Osteoporotic Rat Model

Nicole Sommer, Austria

14:54-15:02

Mutant androgen receptor causes bone fragility by impairing development and microarchitecture in a mouse model of SBMA

Melania Maglio, Italy

15:02-15:10

Oligofructose Fibre Supplementation Mitigates Diet-Induced Obesity Effects In The Subchondral Bone Of The Shoulder Joint In Female Sprague-Dawley Rats

Darsh Tripathi, Canada

15:10-15:18

Loss Of Histone Arginine Demethylase JMJD7 Accelerates Osteoporosis Development By Disrupting Mitochondrial Oxidative Phosphorylation

Yu-Han Lin, Taiwan

15:18-15:26

Experimental Study Of Three Different Osteoporosis Models Of Porcine Condyles Of Femur

Huiming Jiang, China

14:30-15:25 - **AULA D**

FREE PAPERS 20

CARTILAGE & MENISCUS III

*Chairs: Gina Lisignoli, Italy
Harini Karunarathna, Finland*

14:30-14:38

Catalytic Remodeling Of The Articular Pro-Inflammatory Milieu By Palladium: An Extracellular Strategy Against Osteoarthritis

Huiming Jiang, China

14:38-14:46

Exploring The Molecular Mechanism Of Betaine Targeting RARRES1 To Inhibit Cartilage Fibrosis Based On WGCNA And Machine Learning Algorithms

Zhaofeng Zhang, China

14:46-14:54

GDF10 Maintains Calcium Ion Homeostasis To Alleviate Osteoarthritis Via Activating NCX3

Zhaofeng Zhang, China

SCIENTIFIC PROGRAM • FRIDAY, SEPTEMBER 25th

15:54-15:02

335 Three-Dimensional Characterisation Of Growth Plate Surface Morphology Across Development

Mariami Mtchedlishvili, Ireland

15:02-15:10

Inflammatory Lipid Profiles In Synovial Fluid Are Associated With Poor Response To Autologous Chondrocyte Implantation

Yumna Ladha, United Kingdom

15:10-15:18

Key Inflammatory Extracellular Matrix Regulation Markers Mediating Arthrofibrosis In Human Osteoarthritis

Kieran Joyce, Ireland

15:18-15:26

Exploring The Roles Of Chondromodulin (Cnmd) For Novel Osteoarthritis Interventions: Insights From In Vivo And In Vitro 3D Miniaturized Tissue Model

Viviana Reyes Alcaraz, Germany

15:30-16:00 **Coffee break, Poster viewing and Exhibition**

16:00-16:55 - **SALÓN DE ACTOS**

Symposium 38: Clinical FORTE

*Chairs: Dimitra Melissaridou, Greece
Gabriela Graziani, Italy*

16:00-16:05

Introduction to FORTE-EORS collaboration and initiatives

Dimitra Melissaridou, Greece

16:05-16:15

From European Trainee Network to Data-Driven Change: The Evolution of FORTE and the EURO-STEP-OT Survey

Jürgen Alphonsus, Austria

16:15-16:25

Evaluating b-blockers as a Novel Therapeutic Approach in Osteosarcoma: Evidence from an in Vivo Model

Dimitra Melissaridou, Greece

16:25-16:35

Alignment and Juvenile Knee OCD: Mapping the Research Gaps

Evmorfia Pechlivanidou, Greece

16:35-16:40

EORS-FORTE 2025 awardee

Fabrizio Russo, Italy

16:40-16:55

EORS-FORTE 2026 Award: awardees pitches

16:00-16:55 - **AULA C**

Free Papers 21

CLINICAL HIP & KNEE

Chairs: Andrea D'Amelio, Italy

Alejandra Barra Domínguez, Spain

16:00-16:08

Hip Abductor Muscle Composition And Its Age-Related Alterations In Female Patients With Bilateral Hip Osteoarthritis

Tadashi Yasuda, Japan

16:08-16:16

Risk Factors And Sex-Specific Predictive Models For Heterotopic Ossification Following Hip Arthroplasty: The Role Of Surgical Approach And Comorbidities

Ana Alonso Pérez, Spain

16:16-16:24

Identification Of Three Stress Phenotypes In Late-Stage Osteoarthritis

Zsuzsa Jenei-Lanzl, Germany

16:24-16:32

A Modified Quadriceps Snip Technique In Primary Total Knee Arthroplasty For Hemophilic Stiff Knees: A Retrospective Case Series

Qunqun Chen, China

16:32-16:40

The Role Of Artificial Intelligence In Personalized Rehabilitation: VR And Telerehabilitation Approaches

Elif Tuğçe Çil Sertöz, Turkey

16:40-16:48

Clinical Applications And Outcomes Of Digital Rehabilitation Technologies

Nilüfer Cerbezer, Turkey

16:48-16:56

Effect Of ChatGPT-5.2-Assisted Surgical Preparation On Operative Performance In Orthopaedic Residents And Specialists: A Prospective Controlled Simulation Study

Muhammed Yusuf Afacan, Turkey

SCIENTIFIC PROGRAM • FRIDAY, SEPTEMBER 25th

16:00-16:55 - **AULA D**

FREE PAPERS 22

BIOMECHANICS & ORTHOPAEDIC SURGERY

Chairs: Daniel Strack, Denmark

Andrés Díaz Lantada, Spain

16:00-16:08

Biomechanical Assessment Of Anterolateral Plating Solutions For Posterolateral Tibial Plateau Fractures

Ivan Zderic, Switzerland

16:08-16:16

Efficacy And Safety Of Fondaparinux In Elective Total Hip Arthroplasty And Hip Fracture Surgery: A Systematic Review And Meta-analysis

Gonzalo Mariscal, Spain

16:16-16:24

Changes In The Outcome Of Total Hip Arthroplasty In Patients With Osteonecrosis Of The Femoral Head Between 1995 And 2023

Laura Arcos Flores, Spain

16:24-16:32

Measurement Of Perfusion During Non-Union Bone Fracture Healing By Detecting Ultrasound- Responsive Microbubble Activities

Meng Chen Michelle Li, United Kingdom

16:32-16:40

Which Radiographic Plane Should Be Used To Quantify The Distal Tibia Angle On Weightbearing CT Images?

Jules Rasschaert, Belgium

16:40-16:48

Characterization Of A Novel Interlaminar Ligament In The Lumbar Spine: Radiographic, Endoscopic, And Histopathological Analysis

Xiaofeng Le, Singapore

16:48-16:56

CT-Based Micromotion Analysis Of Implant Migration In Robotic-Assisted Versus Manual Total Knee Arthroplasty: Interim Results From A Randomized Trial

Jakob Hermodsson, Sweden

17:00-18:00 - **SALÓN DE ACTOS**

Awards & Closing Ceremony

EXHIBITION MAP
